From the Dawn of Time

There has been a Mystery to Existence ...

Theosophy – Wisdom of the Ages

The word Theosophy has been used for many centuries, it is of Greek origin meaning Wisdom of the Gods (**theo** - of Gods, **sophia** – wisdom). Wisdom cannot be enclosed within words, it is a Truth which must be discovered and experienced by each one for themselves.

Theosophy, sometimes called the Ancient Wisdom, is the Light which shines through the many coloured lamps of religion. It is the thread of truth in scriptures, creeds, symbols, myths and rituals. Divine Wisdom is One, the paths towards it are many. Knowledge of it helps us to live harmoniously with ourselves and others.

Theosophy stands for knowledge of truth. It is an ancient tradition which has shown that by exploring the deeps of our own nature we are able to reach an experience of Truth – an understanding of that Wisdom which is the seat of all spiritual knowledge. Theosophy has existed since the beginning of time and it offers an exciting exploration of the purpose of life and Universal Law.

Theosophy recognises that mankind is not yet perfect and whilst there is unrest in the world and a lack of understanding of one another it is necessary to encourage brotherhood. In recognition of the oneness of humanity, and the oneness of all life, members of the Theosophical Society seek to form a nucleus of the Universal Brotherhood of humanity and we try to live up to this ideal - to learn to live in harmony with one another. The Society should produce wise and active philanthropists. Many of its members give service to the peoples of the world.

Who am I ?

You are part of one existence, the one life of the world - some people call this God and some say it is absolute unknowable cause. You are a divine spiritual being. Your physical body is mortal, your soul is that which thinks and feels itself as “I”, your spirit - your true self - is immortal.

Why am I here ?

You are here in order to discover what you really are and to bring into activity all the powers that lie sleeping within you Infinite love Infinite wisdom Infinite power. Humanity is still very young and most of us have hardly begun the immense task of Self-Discovery, but this is why we are here.

Where am I going ?

You are going in the direction you have chosen - either drifting through life, at the mercy of events and your own passing whims and moods, or taking adult responsibility for the whole of yourself - your character, actions and your future.

At every moment you are choosing either to waste your opportunities, and deny your true self, or to accept your destiny and move consciously towards the goal of Self-realisation. The study of Theosophy will lead you to a fuller understanding of yourself and your true purpose in life.

Theosophy stands for the principles of existence and affirms:

- ✚ All Life is One
- ✚ Universal Law Pervades All
- ✚ An Evolutionary Process in all life

In the sphere of human life these principles are expressed as:

- ✚ The Brotherhood of all mankind
- ✚ Unfoldment through reincarnation and the law of karma
- ✚ Human Self-Realization and transcendence

Our Purpose in Life ?

***IS TO UNFOLD AND BECOME
WHAT WE ARE.***

At our best we can give the perfect expression of divinity in a human personality.
