

Theosophy stands for the principles of existence and affirms:

- ✚ All Life is One
- ✚ Universal Law Pervades All
- ✚ An Evolutionary Process in all life

In the sphere of human life these principles are expressed as:

- ✚ The Brotherhood of all mankind
- ✚ Unfoldment through reincarnation and the law of karma
- ✚ Human Self-Realization and transcendence

The word Theosophy has been used for many centuries, it is of Greek origin meaning Wisdom of the Gods (**theo** - of Gods, **sophia** – wisdom). Wisdom cannot be enclosed within words, it is a Truth which must be discovered and experienced by each one for themselves.

The Foundation was founded by the Theosophical Society in England and is committed to a search for truth in all things, mutual understanding and freedom of thought.

The Foundation For Theosophical Studies

The Objects of the Foundation are:

To advance education, promote or further study and research into religion, philosophy and science, and to disseminate the results of such study and research to the public.

Also to promote study and research in the field of the laws of nature and the powers latent in man, and to advance the recognition of the fundamental unity of all people, through a knowledge of theosophical principles of unity and evolution and perfectability.

The Foundation holds lectures, seminars, workshops, and conferences around the country, in keeping with its charitable objects. There are also residential courses and an Annual Summer School.

The Foundation For Theosophical Studies

Theosophy – Wisdom of the Ages

Theosophy stands for knowledge of truth. It is an ancient tradition which has shown that by exploring the deeps of our own nature we are able to reach an experience of Truth – an understanding of that Wisdom which is the seat of all spiritual knowledge.

Theosophy is not a religion, but it does consider spiritual ideas and the nature of life and the universe, including those from philosophy, religion and science. A study of theosophy throws a flood of light on all these areas of knowledge.

Theosophy, sometimes known as the Ageless Wisdom, is the Light which shines through the many coloured lamps of religion. It is the thread of truth in scriptures, creeds, symbols, myths and rituals. Divine Wisdom is One, the paths towards it are many. Knowledge of it helps us to live harmoniously with ourselves and others.

If we study the great philosophies, religions and sciences of the world we find that there are many uniting principles. Each of us must find our own 'Truth' and strive to understand our own spiritual nature. Theosophy has existed since the beginning of time. It offers an exciting exploration of the purpose of life and Universal Law.

Foundation Activities

Many events are arranged throughout the country and an Annual Summer School is held in early August each year, often at educational establishments. In London there are weekly study courses, Sunday evening public lectures, afternoon seminars, and theosophical gallery tours. We are able to provide speakers to local groups through our National Speakers Scheme. Details of events can be obtained from our website, via e-mail or telephone, or sign up to our E-Newsletter for information, news and articles.

CDs, tapes and books on a large number of subjects are available. Please contact us for information and details of publications and study courses. Examples of talks and courses:

Exploring the Conscious Universe
Reincarnation - Evidence and Implications
The Real Da Vinci Code
Near Death Experience
The Secret Doctrine
Theosophy: Way to Self-Discovery
The Working of Karma in our Lives
Living Freely and Dying Peacefully
Healing from the Inside
Modern Science and the Ancient Wisdom
The Holographic Universe
Gnostic Light on Blavatsky's Wisdom
Networking with Angels
Taoism, String Theory & Goddess Cultures
Occult Exploration & Mystical Experience
Fundamentals of Esoteric Philosophy

The Unexplained Laws of Nature

Mankind has many powers which are not yet understood. These are 'latent' powers because we do not yet fully know what they are or how to use them. Theosophy offers knowledge of why and how things like precognition and telepathy exist, but science does not yet understand how they operate so these things are to the outer world the unexplained laws of nature.

Fundamental Unity of All People

A study of theosophy shows there is a fundamental unity between all people. Mankind is not yet perfect and whilst there is unrest in the world and a lack of understanding, it is necessary to strive to bridge the gap and learn to live in harmony with one another.

The study of Theosophy will lead you to a fuller understanding of what you really are and bring into activity all the powers that lie sleeping within you Infinite love Infinite wisdom Infinite power. Humanity is still very young and most of us have hardly begun the immense task of Self-Discovery.
